**NB: please note that these are 5 random query results. You can see the rest of the results further below.**

- Delight my girlfriend.
- It enabled my parents, who are isolating due to COVID, to have 2 minutes of my brother, sister and I chatting, just like we were there for Christmas.
- A different way to express and share my feelings and how much I care about someone in my life.
- nice memories from my spouse, although we share our experiences and thoughts regularly so the memories are refreshed often in person.
- The ability to be together when we couldn't be

## 6. Audience

What type of person do you think would benefit most from RecollectYou?

**NB: please note that these are 5 random query results. You can see the rest of the results further below.**

- Open, thoughtful, expressive, emotional.
- Someone who lives abroad, away from most of their family and friends, and wanted to keep in touch. It's especially good for older people and young people (to receive the recollections)
- Someone who values personal gifts.
- Someone with significant distance / infrequent contact with people they love. Perhaps older people or those with memory loss issues.
- Most people particularly useful for those families and friends separated by geography

## 7. Improvement

How can we improve RecollectYou to better meet your needs?

- I submitted first recording of all so that it was as authentic as possible. I didn't do any prep & did them from the top of my head. I'm glad I took the first recordings but, in retrospect, I wish I'd have planned what I was going to say at least a little bit to make the most of the available 2 mins. Guidance on this up front perhaps? Otherwise, product did exactly as I'd hoped - Great!
- - Be a bit more flexible on time - 2 mins is pretty short! Maybe not by much, but perhaps another minute? - Enable the user to "tweak" the questions where necessary - or have a few options (e.g. my parents are really clueless about Christmas movies, so I would have changed the question about what film character they are) - Allow other people to join remotely. I actually got my sister and brother on a group WhatsApp call on my phone and recorded their answers via a speaker on my computer
- More options for different questions to select depending on your relationship with the person you're sending it to. A chance to write your own question you can answer.
- Possibly make the segments slightly longer. The opening seconds of each episode felt rushed or slightly truncated, so the whole memory seemed very brief. Would add perhaps a further 30 seconds.
- Make it a bit more customisable maybe have a selection of standard questions to allow people to pick 7 from 10
